Hi Eric,

I will address these figures as soon as I can and make sure you get them within the next few days.

Subject: NFB gamma survey update

Good Afternoon:

I have some immediate requests that have to be addressed. Can you please revise the ranges of the gamma survey figures for NFB? Right now we have 150 micro R/hr or more. Can it be broken down a bit more by levels (200, 250, 300 or similar)? All the way up to the highest reading (if 450 microR/hr is highest then that's highest range value). Also, can I get the highest gamma reading from each area? Areas 1 through 7. I'm sorry for the urgency but I'm being asked for this info by the end of the week.

Thanks

Regards,
